

PLEASE GIVE THIS MESSAGE TO YOUR PASTOR:

I'm happy to inform you that many Christians are already using our new social site called **BaptistSocialNetwork.org** – a free online ministry.

Until now many of your church members had to use MySpace to keep in touch with friends, and meet new ones. But as you know that site is full of display ads with explicit sexual content, not to mention all the people there who befriend your members and tempt them away from the faith.

BaptistSocialNetwork.org is a great tool for your church to use. You can create a special area (group) named after your church, complete with its own forum, photo albums, blogs, video uploads, members list, event calendar, etc – and a person in your church can be assigned to monitor the activities of your newly created group. It's all 100% free.

I am appealing to you, as the pastor of your church, to encourage your members to start using our site instead of MySpace.com, which is really not a place for Christians to hang around at. Our site is free to use, does not solicit any money from anyone, and only allows kid-safe display ads.

Please cut out the mini flyer below, make copies, post them in your church bulletin, and pass it out to as many people as possible. Your Youth Pastor is also recommended to open an account and encourage the young members of your church to start using it (MySpace & YouTube are NOT safe places for them).

Let's work together to make the Internet a more spiritual, more wholesome, and God centered place. I look forward to your support of our ministry. We do **not** need money, just tell your members about us. If your church has been using MySpace, now it has a better option, our social site offers more features.
